

Match Play

Group Stage: The field is placed into 4 man groups (determined by handicaps. No play in). Everyone in the group plays each other round robin style. Basically 3 matches to determine the winner of the group who advances on.

Scoring will be 1 pt. for winning a match & ½ pt. for a tied match (no putt off or chip off in the group stage)

If we have 32 or less participants, then the winner of each group will go to the elite 8.

If we have more than 32 than the winner of each group will go to the sweet 16 and then the remainder of sweet 16 will be filled out with those who have the most points but didn't win their group. (For example, if we have 40 participants, then we will have 10 groups. So, the 10 group winners would advance along with 6 highest point totals that didn't win their group).

After the group stage the matches will be single elimination. Win advance, lose your out. Putt or Chip off will determine the winner of tied matches at this point.

If we have an odd amount of participants then we may end up with a couple 3 man groups. In this case each one of that group would have a bye & would get a ½ pt. for their bye match.

The \$10 entry fee would be due the week prior to the start of the matches.
